WORK EXPERIENCE

Mangali Industries Ltd. (Daewoo Lubricant)

Purchase Manager / May 2025 – Present

- Lead procurement of lubricant additives, base oils, packaging materials, ensuring timely availability in line with production requirements.
- Conduct market research to identify emerging suppliers, alternative sources, market trends and procurement opportunities within the lubricant industry.
- Lead commercial negotiations with suppliers to secure competitive pricing, favorable payment terms, optimized lead times and reliable supply commitments.
- Manage supplier relationships through performance monitoring, reviews, quality coordination and resolution of supply-related issues.
- Drive supplier development and alternate sourcing initiatives to improve supply reliability, quality standards and cost competitiveness.
- Align procurement plans with production schedules, material requirements, inventory levels and market trends to ensure uninterrupted manufacturing operations.
- Managed end-to-end inbound logistics for raw materials, additives, base oils and packaging materials, coordinating with suppliers, transporters, production planning and warehouse teams to ensure timely and cost-effective material movement.
- Managed outbound logistics and distribution planning from manufacturing locations and regional depots, coordinating dispatches, transporter allocation, route planning and delivery schedules in line with customer and sales requirements.

KEY ACHIEVEMENTS

- Warehouse & Inventory Cost Optimization: Consolidated regional inventory and closed low-volume depots/warehouses where sales volumes did not justify the storage infrastructure, reducing inventory holding and warehousing costs by approximately ₹5 million annually.
- Outbound Logistics Optimization: Centralized product dispatches through the Wada plant instead of regional depots, reducing transportation cost from approximately ₹17/Liter to ₹9/Liter—a reduction of approximately 47% per litre—and delivering annual outbound logistics savings of approximately ₹7 million.
- Strategic Additive Contract Negotiation: Successfully negotiated and finalized a strategic supply contract with IMCD (Lubrizol) for additives, achieving approximately 15% price reduction and delivering significant procurement cost savings.
- Strategic Supplier Development: Developed and qualified alternate suppliers for RRBO, reducing dependency on single-source suppliers, strengthening supply continuity and creating competitive sourcing opportunities for cost optimization.
- Overall Cost Optimization: Delivered approximately ₹1.2 crore in identified annual savings through warehouse consolidation and outbound logistics optimization, excluding additional savings from additive contract negotiations and alternate-source development.

Nandan Petrochem Ltd.
Purchase Manager | Jul 2024 – May 2025

- Managed procurement of lubricant additives for Taloja and Silvassa plants, ensuring timely availability of raw materials to support uninterrupted production of lubricants and greases.
- Planned daily raw material requirements based on material indents, sales orders, production requirements and inventory levels.
- Managed procurement of packaging materials including plastic containers, buckets, labels, cartons, coupons, Beri caps, HDPE drums and MS drums.
- Prepared commercial and pricing data for packaging materials and coordinated with the Accounts team for verification and timely updating in SAP.
- Managed monthly raw material and packaging inventory ageing reports, identifying slow-moving and excess inventory and coordinating with stakeholders for liquidation and stock optimization.
- Retrieved and analyzed Accounts Payable data from SAP for raw materials and packaging materials and coordinated with Finance for timely payment releases.
- Monitored daily tank stock levels for bulk additives and evaluated storage capacity and bulk procurement opportunities to optimize storage and reduce procurement costs.
- Coordinated with Logistics and plant teams for transportation of additives from supplier locations, LSR Taloja and plant locations, ensuring timely movement of materials.
- Prepared Sales Orders in SAP for internal stock transfers and coordinated with plant teams to ensure timely material movement.
- Analyzed procurement spend and expenditure trends to identify potential savings opportunities and monitor budget adherence.

KEY ACHIEVEMENTS

- Bulk Procurement Optimization: Delivered approximately ₹3 crore in annual savings by shifting selected additives from drum-based to bulk procurement using available tank-storage capacity.
- Inventory Optimization: Implemented monthly inventory-ageing analysis for raw and packaging materials, identifying ₹4.5 Million of slow-moving/excess inventory for liquidation and optimization.
- Cost Savings: Achieved approximately ₹20 Million annual savings through supplier negotiations for packaging procurement optimization.

I G Petrochemical Ltd.
Dy. Purchase Manager | Oct 2022 – Jun 2024

- Managed procurement of approximately 19–21 KT/month of Ortho Xylene, comprising 17–18 KT/month through domestic sourcing and 2–3 KT/month through imports from Southeast Asia.
- Managed domestic and import procurement activities covering supplier coordination, commercial negotiations, purchase contracts, logistics, shipment planning and material availability.
- Prepared one-page purchase contracts based on daily Platts assessments and foreign-exchange rates and ensured timely issuance of Purchase Orders through the ERP system.
- Coordinated with Commercial and Finance teams for Letter of Credit issuance, fund availability, bank guarantees and LC amendments.
- Liaised with Customs House Agents, shipping agents, surveyors, port authorities and import sellers to coordinate customs clearance, vessel nominations, unloading and cargo documentation.
- Monitored raw material inventory and inbound material movement from suppliers to the plant and prepared daily inventory reports for internal stakeholders.
- Coordinated vessel nominations and discharge-port activities to ensure timely unloading and minimize the risk of demurrage and supply disruption.
- Managed cargo insurance, survey arrangements and shipping documentation for imported raw materials.
- Supported domestic sales of Ortho Xylene through Sales Order creation, vendor/customer coordination, payment follow-up, documentation and loading activities.
- Prepared annual contracts and coordinated procurement administration for SGS surveying services and Aegis Port storage tank facilities, including monthly POs, bills and payments.
- Prepared monthly MIS reports for import/export procurement analysis, utilizing Platts assessments and other market data sources.

KEY ACHIEVEMENTS

- Strategic Raw Material Procurement: Managed 19–23 KT/month of Ortho Xylene across domestic and import sources, supporting continuous Phthalic Anhydride production while optimizing sourcing through Platts-linked pricing, supplier negotiations and import/domestic procurement strategies.
- Supply Chain & Import Management: Coordinated 36KT import shipments annually across vessel nomination, LC, customs clearance, port operations and unloading while minimizing supply disruption and potential demurrage.

Recognition: Awarded Star Performer of the Year – 2023 for Strategic Sourcing Initiatives and Vendor Development Excellence.

Raj Petro Specialties Pvt. Ltd.
Dy. Purchase Manager | Mar 2022 – Sep 2022

- Led planning and procurement of packaging materials including plastic containers, buckets, labels, cartons, coupons, Beri caps, HDPE drums, MS drums and flexi bags for Cluster I and supported procurement requirements for Cluster II.
- Managed the complete RFQ and e-procurement process through BOB eProcure, including enquiry floating, online quotation collection, reverse auctions and preparation of Quality Compliance Sheets.
- Negotiated with suppliers to achieve competitive commercial terms for consumables, packaging materials and other SCM requirements.

- Evaluated supplier quotations and finalized Purchase Orders in SAP based on commercial, technical and quality requirements.
- Maintained the vendor database in accordance with SOP requirements, including vendor creation, deactivation and KYC verification.
- Monitored open Purchase Requisitions and Purchase Orders and coordinated short-closure activities to maintain accurate procurement records.
- Coordinated with Finance for timely release of vendor payments and monitored outstanding dues.
- Supported ISO audits and prepared MIS, spend analysis, COGS and SHE-related procurement reports.
- Managed material code creation and approval processes and conducted supplier price and cost analysis.

KEY ACHIEVEMENTS

- E-Procurement Savings: Delivered approximately ₹10 Million annualized savings through RFQs, competitive bidding, reverse auctions and supplier negotiations using BOB eProcure.
- Process Improvement: Standardized RFQ, quotation evaluation, Quality Compliance Sheet and reverse-auction activities to improve procurement transparency and commercial competitiveness.

Columbia Petrochemical Pvt. Ltd.

Assistant Purchase Manager | Aug 2020 – Feb 2022

- Managed domestic procurement of base oils, packaging materials, consumables and engineering spares based on operational requirements.
- Analyzed market conditions, supplier availability and delivery systems to support procurement planning and ensure timely material availability.
- Supported development and implementation of purchasing and contract management procedures to standardize procurement activities.
- Reviewed Purchase Orders, contracts and vendor claim for compliance with organizational policies and procurement requirements.
- Coordinated with internal stakeholders and suppliers for product specifications, substitute materials and procurement requirements.
- Managed vendor relationships and resolved quality, delivery, commercial and service-related issues.
- Coordinated disposal of surplus materials in accordance with company procedures and applicable requirements.

KEY ACHIEVEMENTS

- Cost Reduction: Achieved successfully target of 2-3% annual savings through supplier negotiations, competitive sourcing and alternate vendor development.

Krishna Antioxidant Pvt. Ltd.

Purchase Executive | Dec 2018 – Jul 2020

- Managed domestic procurement of base oils, additives, packaging materials and consumables through supplier enquiries, quotation comparison, commercial negotiations and purchase planning.
- Coordinated import clearance activities for materials received under advance licences and procurement certificates, working closely with Customs House Agents.
- Prepared raw material and packaging material costing data for management review and approval.
- Coordinated transportation of imported materials from ports to warehouses and plant locations and tracked deliveries through to receipt.
- Prepared monthly procurement plans and shared material forecasts with suppliers to support supply planning and inventory management.
- Created Purchase Orders in ERP systems and followed up with suppliers to ensure timely delivery against agreed schedules.
- Managed inward documentation, invoice verification and ERP data entry in accordance with internal procedures.
- Maintained regulatory and procurement documentation required for finance and statutory audits

KEY ACHIEVEMENTS

- Import Supply Chain: Coordinated import clearance and inland transportation from port to plant, ensuring timely availability of imported materials and reducing avoidable supply delays.

Fuchs Lubricants (India) Pvt. Ltd.

Purchase/Stores Executive | Dec 2016 – Dec 2018

- Managed Goods Receipt Note activities for raw materials, packaging materials and engineering spares.
- Maintained accurate stock records for incoming materials and supported inventory tracking and reconciliation.
- Planned daily material requirements, executed purchasing activities and followed up with suppliers to ensure timely deliveries.
- Created Purchase Orders and Work Orders in SAP for Annual Maintenance Contracts, audits and equipment check-ups.
- Coordinated with vendors and internal teams to resolve material quality, quantity and documentation discrepancies.
- Maintained procurement and statutory documentation required for finance and audit compliance.
- Monitored vendor payment status and coordinated with Accounts for timely release of outstanding payments.

KEY ACHIEVEMENTS

- Inventory Accuracy: Improved material-receipt and inventory control through disciplined GRN processing and stock-record maintenance across raw materials, packaging materials and engineering spares.
- SAP Process Management: Strengthened procurement transaction accuracy through timely processing of GRNs, POs and Work Orders in SAP.

EDUCATION

Post Graduate Diploma in Management – Supply Chain Management

Welingkar Institute of Management | *Pursuing*

Masters in Computer Application

YMT College of Management | *First Class* | 2014

BSc in Computer Science

Tilak College of Commerce & Science | *Second Class* | 2010
